CROSSPRO

// ALUMINUM

RADIATOR

GUARD

Radiator aluminum guard

- // The CrossPro radiator were specially designed to protect your Cooling System, your bike's most fragile and important component - without obstructing airflow to the radiator
- // Designed as a "radiator roll cage", the CrossPro radiator protection secures a perimeter around the radiator, without its fixation points are in direct contact with the radiator
- // With this security perimeter, hard impacts won't affect your radiator
- // Made by best quality aluminum, with a thickness of 3mm

Protecções de radiador em alumínio

- // As protecções de radiador Light CrossPro foram desenvolvidas para proteger o sistema de refrigeração (a parte mais frágil e importante da sua moto). Não obstrui o fluxo de ar necessário para o devido arrefecimento
- // Desenhado como uma espécie de "Concha", a protecção de radiador assegura um perímetro de segurança, sem que os seus pontos de fixação estejam em contacto directo com o radiador. A fixação é efectuada ao quadro da moto.
- // Com este perímetro de segurança, os impactos nunca serão transmitidos directamente ao radiador
- // Produzidas em alumínio da mais alta qualidade, com espessura de 3mm.
