FACTORY EDITION #2 REAR CHAIN GUIDE WITH REPLACEABLE WEAR PAD

USA PATENT # D601,465 AND ECU-1009005 PATENT NUMBER ISSUED IN EUROPE

- The number one chain guide used off road by KTM, Husky, Gas Gas, Sherco, Yamaha, Kawasaki, Honda.
 - TM Designworks' RMS (return memory formula) is the only plastic formula purpose built for Dirt Bikes with Return memory.
 - Low cost replaceable wear pad comes in available in 2 compounds choices. Production and Composite.
 - Chain Guide body extends out in front of mounting bracket for superior protection and possible brackets bending.
 - Our wide opening accepts any 520 O-ring chain, and up to 3 over on sprockets.
 - "WORKS" bike fit and finish makes this chain guide the Ultimate choice for any type offroad riding, trail, MX riding.
 - Check out our new "GP Motocross" rear guide if you ride strictly MX or SX and nothing else.
 - Rated #1 by all the top Online and Magazines and comes in UV protected multiple color choices.
- This rear guide owns a record breaking 20 straight years of national championship and extreme enduro's.

HOCCG-SX5

HOCCG-SX5

KHCCG-SX5

FACTORY EDITION SX REAR CHAIN GUIDE

USA UTILITY PATENT # 9,469,379 & ECD PATENT # 25837-0001

- Slimmer profile, much narrower, and increased ground clearance for SX-MX.
 - Chain wear pad and side plates are lengthened for maximum protection in deep ruts and corners.
 - Custom "RMS" Return Memory TMD exclusive formula is industry leader for chain guides.
 - Plastic has oil additive to reduce surface drag and chain plate wear.
 - Color is UV protected and is the first production "WORKS" bike guide at an affordable price.
 - Chain guide body is re-angled to accept stock and 1-2 teeth oversize sprockets without affecting wear pad life
- Used and proven in competition by KTM Factory Ca, Geico Honda, 5150 Yamaha, Rockwell Racing etc.

POLIFIBER REAR CHAIN GUIDE SHELL

NEW VERSION FEATURES REVOLUTIONARY "POLIFIBER" PLASTIC FORMULA FOR GREATER OVERALL STRENGTH & ABRASION RESISTANCE

- Composite formula using the best of a poly, and carbon, based materials.
- Updated rear chain guide shell is designed for MX, SX, or OEM replacement use.
- Uses the stock or TMD upgrade replacement inner chain rub block insert.
- Cool looking lightweight cutouts make it look like a "one off" Factory Race Bike!
- 100% molded with TMD's RMS (Return Memory System) produces a shell that won't bend like aluminum on impact.
- Outside reinforcing ribs add strength and help deflect rocks and dirt.
- 6-month free replacement warranty (less shipping/handling).
- Utility Patent #7,740,554 made by TMD in USA.
- **Not recommended for serious off road use. Use our Factory Edition #1 or 2 rear guide for tough terrain.**

OE STYLE MOTO REAR CHAIN GUIDE SHELL AND INNER RUB BLOCK COMBINATION

TMD COMPLETE PACKAGE OF REAR CHAIN GUIDE SHELL AND INNER RUB BLOCK INSERT IS DESIGNED FOR MX OR SX RACING

- Aluminum shell and incorporates the stock inner rub block or TMD insert.
- Light as carbon fiber but is less prone to cracking or breaking.
- Molded with "RMS" Return Memory System.
- Won't bend or break like alloy on impact.
- Features ultra-cool lightweight cutouts.
- Reinforcing ribs add strength and help deflect rocks.
- UV stabilizers help maintain color under direct sunlight.
- Not recommended for GNCC-type off road racing. Go to our factory edition one or two chain guides for off road or multipurpose use.

NOISE DAMPENING FRONT SLIDER

COMPRESSION MOLDED HD CHAIN SLIDERS THAT INCORPORATE OUR 2-STAGE DAMPENING PADS TO REDUCE CHAIN NOISE

- The perfect multi-purpose replacement part for MX, offroad, or recreational riding.
- Slider is our best PLR plastic oil-impregnated formula for low surface drag.
- UV protected with improved race team tested shape and chain angle.
- Simple bolt on design with UV to protect color and plastic from cracking over time.

DIRT BIKE LOWER POWERLIP ROLLERS

IMPROVE YOUR BIKES DRIVE TRAIN SPEED AND TENSION ACCURACY OVER STOCK & CHEAP AFTERMARKET ROLLERS

- Low friction material reduces drag and chain plate wear without transferring heat.
- Exclusive Powerlip design so the chain runs fast and true.
- Sealed bearings in the roller include are top of line with special racing grease.
- Most rollers include hardware and matched set of protection washers.
- A variety of colors is available for most applications.

DIRT BIKE UPPER POWERLIP ROLLERS

- Improve drive train speed and tension accuracy over cheap replacement rollers.
- Low friction material lowers drag without transferring heat.
- Exclusive Powerlip design so the chain runs fast and true.
- Sealed bearings in the roller include a matched set of plated washers that protect the outside bearing surface.
- Most applications include stainless/OE hardware.

Multi time endurocross & off road champion and Factory KTM rider Cody Webb

BARE BONES SLIDE-N-RUB BLOCK KIT

- Our lowest priced performance kit.
- Includes Dirt Cross Chain Slider and inner Rub block. (Except for KXF. It's a Baja slider)
- Special additive for low surface drag and drive power.
- Slider has different factory team race tested thickness and shape.
- Our inner rub blocks are made by us in USA with new material for less noise but yields higher wear life.
- Fits stock aluminum, Carbon fiber, or TMD Polifibar plastic housing/impact U shaped shell.
- You can mix and match any of the current production colors available. No custom colors.
- New hardware is included if needed like our Yamaha kit for example.

SX FACTORY EDITION SLIDE-N-GUIDE KITS

KIT INCLUDES DIRT CROSS MULTIPURPOSE FRONT SLIDER & AND SX FACTORY EDITION REAR GUIDE

- Rear guide is designed with a tapered outer profile to reduce drag in ruts.
- High ground clearance is improved or same as the OEM
- Inside width is setup for new current chain plate thicknesses.
- The SX rear guide will not accept extra thick and wide O-Ring chains.
- The new Narrow style O-ring chain like from DID will work with our guide
- Special composite Construction is flexible and uses our return memory plastic.
- Lighter weight than most rear guides and trick new chain angle for oversize sprockets.

FORK LUG PROTECTORS

- Nice new product that protects your Lower Fork Legs from Damage.
- This product is molded from impact absorbing plastic and is a simple bolt on.
- Precision fit to skim over obstacles and prevent hard impact damage to bottom underside of forks.
- Allows you to easily access dampening adjustment. Lightweight but strong.
- This a must have part for off road or Deep rutted MX tracks.
- Available in Black, Blue, and KTM Orange.
- Utility Patent # 9,415,817

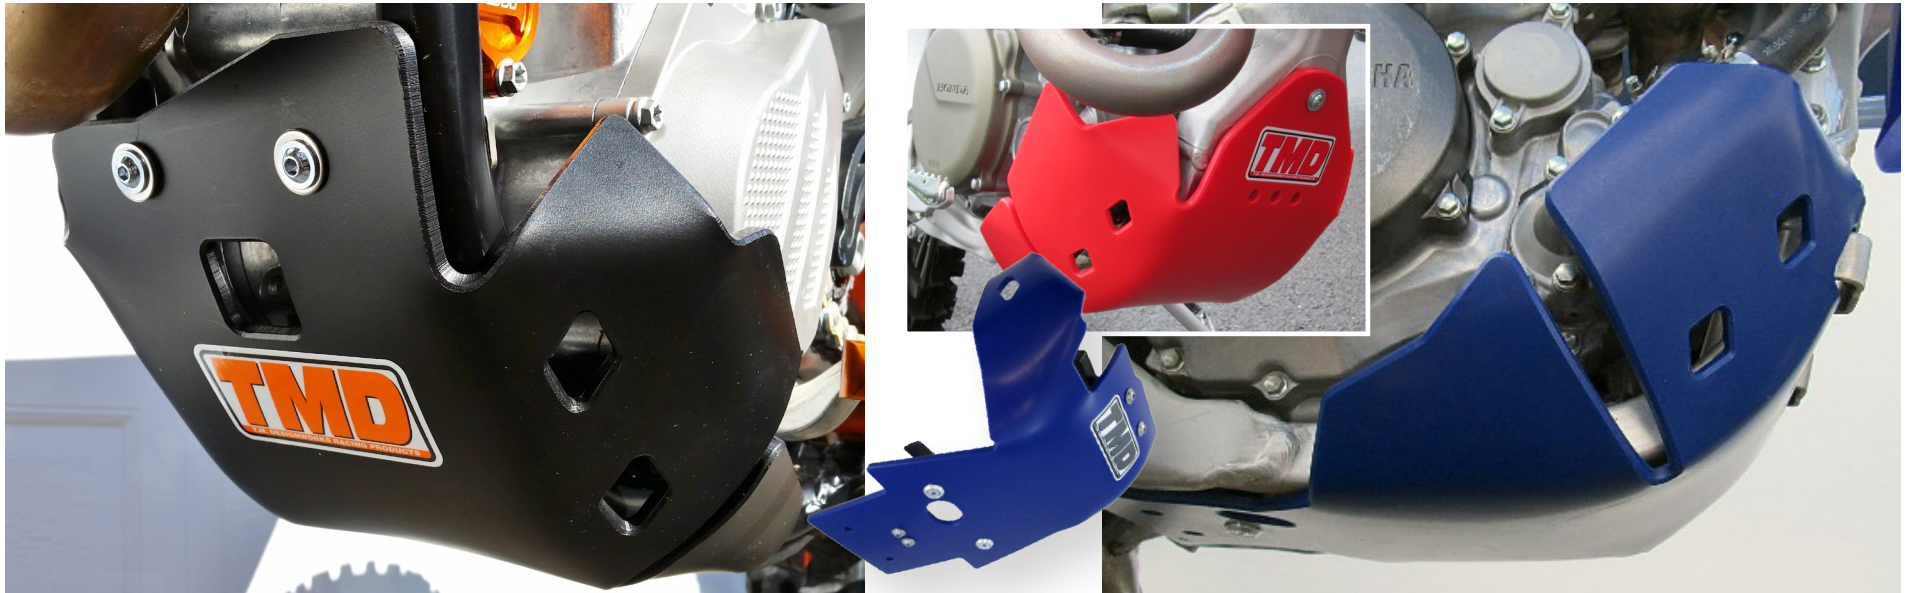

NOTE: DEFG-H01 WILL NOT FIT (2016) 4CS FORKS & AER OR XPLORER FORKS

FULL COVERAGE SKID PLATES

- Built for rough MX, offroad, and Enduro riders that need maximum racing protection.
- Patent Pending design is precision formed (not molded) with no welds to crack or break.
- 35% lighter than alloy plates.
- Covers frame rails, water pump, and ignition cover.
- Reduces noise and vibration.
- Engineered to provide the best overall coverage.
- Hardware replacement available individually or as a kit.

MX GLIDE PLATES

- Plastic skid plate is superior to any molded or carbon based plate.
- Covers upper/lower frame rails.
- Works with stock or accessory outside ignition and water pump guards.
- Perfect for Motocross and Supercross racing.
- Precision formed, not molded.
- 35-40% lighter than any alloy design.
- Multiple color choices available.

TMD BOLT-ON LINK PLATE GUARD

New Bolt on Link Guard Flap for off road riders that continually run rough terrain and rub rocks, logs etc.. This little item doubles the link flap thickness for extra protection in case you rub through initial part of link guard. Easy to install to any existing TMD Link plate or we can preinstall on any order at no extra charge. Pre-purchased parts require drilling 1/4" bolt holes. More models to come. See website for more information. More models to come. See website for more information.

- We can preinstall the extra bolt on Link Flap Guard for you on any of our existing link Skid Plates at no charge.
- Cost for entire package is \$169-175 depending on model
- Can only be ordered by phone
- Preinstall is not available through website

DUE TO THE POPULARITY FOR KTM AND HUSQVARNA APPLICATIONS, TMD WANTS TO BRING SPECIAL ATTENTION TO THESE MODELS TO IDENTIFY THE KEY FEATURES:

- New Patent Pending Ultimate case protection and upper chain pad kit.
- Upper wear pad keeps loose chain in line and oil additive eliminates bind on chain when suspension compresses.
- We design an Extra mounting hole to solidly secures part to prevent a loose chain from wiping out case or Clutch.
- The KTM-Husky part is FIM approved, Ejects mud, and C/S sprocket and nut can be removed instantly..
- Frame and airbox parts are protected much better than stock OE parts or other accessories..

SX LIGHTWEIGHT BRAKE CALIPER CARRIER

- Reduces rear wheel weight.
- Tested and used by Geico Honda race team.
- Eliminate upper and lower disc guards which are not needed for most SX/MX tracks.
- Stronger and 50 grams lighter than stock cast part is a real advantage.
- Fitment tolerance much better than stock and provides firm rear brake feedback at the pedal.
- Not pictured but includes a new OEM Honda caliper holder plate and rubber dirt boot at brake pin.

REAR ROTOR GUARD FOR STOCK MOUNT

- Our rear disc protector is the first design to maximize performance using the stock mounting tab.
- One piece solid aluminum is machined for lightweight and heat treated for superior strength.
- Features Return Memory Plastic to absorb heavy impact and not snap the tab off like heavy aluminum protectors do.
- This disc protector is the only design to give side as well as frontal impact protection against rocks and debris.
- The only disc protector that will not add sprung weight to the rear wheel.
- Brake rotor guards saves stock thin casting tabs from snapping off because of our superior impact absorption.
- Induction slots move air flow and have been race tested to help cool the rear disc.
- Worldwide patent. USA # D592,108, D592,559. European Countries - 1666981.

ATV REAR CHAIN GUIDE WITH DUAL POWERLIP ROLLERS (RCG-002)

ONE PIECE "MEMORY FLEX" MOLDED PLASTIC HOUSING FOR STOCK AND AFTERMARKET ARMS

- Incorporates TM Designworks trademarked "Zero Drag" Powerlip Rollers for 100% rear wheel horsepower.
- "Zero Drag" Powerlip Rollers add more lift while speeding the chain through with zero rolling resistance.
- Disperses sand - dirt through the bottom for smooth performance.
- All necessary hardware is included. Bolt on without removing chain.
- 1-Year breakage guarantee on body only. Patented Product # D600,600.
- Replacement Powerlip Rollers available separately. Order Part # ZDR-002 plus color.
- Solid wear pad replacement can also be purchased for more impact strength. (RCG-ZDP)
- Houser Swingarm applications can also be Special Ordered with solid wear pad instead of Powerlip Roller

RCG-002

RCG-005 with single Powerlip Roller

RCG-005 WITH SINGLE POWERLIP ROLLERS

- For stock and aftermarket arms
- Available in all colors and uses single roller.
- Fits OE Blaster, Warrior/Raptor 350 stock setup.
- Also used with Banshee stock arm and skidplates or without.
- Great ground clearance for Yamaha sport ATV and all models of aftermarket arms.
- Body and roller (ZDR-035) are replaceable.
- This part is also used in our alloy swingarm bracket mount for various ATV's.
- See application chart at left

Aluminum Shorty swingarm skid plate

RAPTOR 700	RAP-700-AL	134.95
------------	------------	--------

- Special Plastic/ formula is impact resistant and protects the frame from damage.
- Lightweight and strong.
- Complete coverage from under the bumper to the main cross frame rail.
- Silicone finish helps keep the mud and dirt from sticking and easily slides over rocks and logs.
- Does not increase noise or bind the frame flex for handling like aluminum.
- Hardware and oil drain hole included.
